BUFFALO, April 8 .- On motion of Special United States Attorney P. S. Chambers of Pittsburg Judge Hazel of the United States Court here to-day cancelled the citizenship papers of Jacob A. The cancellation of the papers was due largely to the evidence given by Kersner's father, who came from his home in Rochester to testify Kersner senior said that the papers were issued to his son in 1884, two years also killed, by a vote of 99 to 36, another after the young man landed in this country from Europe and after he had been in the country only two years and still lacked three years of the required time of residence to entitle him to citizenship. WOMEN IN THE TARIFFFIGHT

THEY PROTEST AGAINST RATES ON GLOVES AND HOSIERY.

Committee From Chicago Call on Uncle Joe, and He Tells Them Their Wishes Will Be Considered-Senate Committee Has Reduced Rates Unasked.

WASHINGTON, April 8.-There is bound o be a lot of excitement in the House of Representatives to-morrow over the glove and hosiery schedules in the Payne tariff bili. Lovely women appeared in the halls of Congress to-day to protest against increased duties on these articles of commerce. They came from Chicago. Escorted by Representative Foss of that city, a handsome man, chivalric and gallant, they proceeded to the office of Joseph G. Cannon, Speaker of the House Uncle Joe was in the best of good spirits and he gave his fair callers a cordial welcome

Chicago is very much wrought up over the increased duties imposed by Payne bill on stockings and the gloves. The feminine population of that great Western metropolis have been The Government alleges that Kersner holding mass meetings denouncing what was married to Emma Goldman, in Roch- is regarded there as a legislative outrage. A few days ago the women of Chicago got together and decided to exercise gether again as man and wife. Lewis, Mrs. Ella Henderson, Mrs. Freeman E. Brown and Miss Helen Norris, all Under the act of June 29, 1906, it is well known in Chicago. This was the committee that was presented to the Speaker of the House.

Uncle Joe assured the fair protestants that their petition would be duly presented and duly considered. He made a little speech in which he said that it was the right of all Americans to petition Congress and that it was the duty of Congress to give due consideration to all petitions. Furthermore he assured his callers that the handsome Representative Foss, who stood at attention during the proceedings, would get recognition tomorrow at noon to present the petition urging the reduced duties on hand coverings and stockings.

Gloves and hosiery formed the subject of a conference held in the office of Chairman Payne of the Committee on Ways and Means. Kenneth Barnhart of Marshall Field & Co., Francis C. Simmons of Francis T. Simmons & Co. and Charles A. Stevens of the firm of Charles A. Stevens & Sons, representing three Chicago department stores, called on Mr. Payne to protest against his charge that the agitation against the increased duties on gloves and hosiery was inspired by department stores that manufacture gloves and hosiery in Chemnitz, Germany, They submitted an affidavit in which they denied in the most emphatic manner the truth of the allegation. It is understood

that the session was a lively one Chairman Payne has positive opinions on almost every phase of the tariff bill. directed against the glove and hosiery schedules, and he frankly said so to his be discourteous. He said he did not care hoped some time they might get places callers. They responded in kind. The ment that the affidavit made by the representatives of the department stores should be read on the floor of the House. This was done by Representative Madden of Chicago.

Every effort will be made to-morrow by the Democratic leaders and Republican insurgents to get a vote on the glove and hosiery schedule, although the rule A vote can be had only in the event that ing it. If a motion is made calling for a vote on this schedule it will be overruled by the Chair as out of order. It will then be up to the House to overturn the decision of the Chair. There is another way of revising the Payne rates on gloves when the bill is taken up for passage to recommit, with instructions to the Ways and Means Committee to report an amenda ment reducing the duties on gloves and hosiery. One plan or the other will be Opponents of the glove and hosiery schedule in its present form have not decided which course they will pur- affect McCormick's estate.

There is an element of comedy in the matters of the tariff the Senate exercises a very commanding influence as between the two houses, and it is equally well known that in matters of the tariff the Committee on Finance shapes the course of the Senate. While members of the House have been tearing their hair over the glove and hosiery schedule of the Payne bill the Republican members of the Committee on Finance have been quietly at work, paying no attention to the excitement in the House wing of the Capitol. The Republican members ten days ago to reduce the duty on gloves. Since then they have reached the conclusion that the duty on hosiery as proposed is excessive. So whatever the action of the House on these schedules to-morrow it will have no effect on the conclusion of the Committee on Finance, which has decided that the Payne rates far beyond the protective point.

So many grownups and children turned

out to serenade the police who were rounding up automobilists on Broadway last night that it finally became necessary to call out the police reserves to clear a lane whereby the prisoners might be taken to the West Sixty-eighth street police station. Upper Broadway after 8 o'clock looked as if a parade were under way, for no secret had been made of the fact that there was to be a general seizure of all autoists who broke the law in any

In all 81 autoists fell into the police trap in Manhattan last night.

Just after dark Sergt. Ben Mallom. Commissioner Bingham's personal aid. rode slowly to Columbus Circle. Presently he was joined by men on motorcycles and plain bicycles, in police autos and two hired taxicabs. All wore citizen's clothes. Mallom told the men to scatter along the auto route on the West Side and to arrest every person who was driving above ten miles an hour, or whose auto license was not displayed in a conspicuous place. or whose machine had no rear lamp or

one that wasn't lighted The conference at the Circle didn't take over five minutes, but that was time enough for the news to fly near and far. People at once began to gather about the West Sixty-eighth street station house, which is a few feet from Broadway.

By 8:30 o'clock Broadway was lined as for a parade from the Hotel Marie Antoinette, at Sixty-seventh street, up to Seventy-second street. Folks didn's have long to wait for the fun. Shortly before 9 o'clock there came a cheer from along the line to the south of the police station. A motorcycle man came slowly station. A motorcycle man came "Get a horse!" "Honk, honk!" and "Stung!" Then all roared in concert.

Arrived at the station house the chauffeur was hurried inside to the accompaniment of more cheers. Policemen were sent out to clear the street. The man arreste was George Fox, chauffeur for forme Attorney-General Robert H. McCarter of New Jersey. Fox had been picked up at the Circle going eighteen miles an hour right into the police net.

Fox was still before the railing in the police station when the cheering broke out again in greater volume, as the crowd had grown. The second man arrested was Lewis Hauvt, a chauffeur for the New York Taxicab Company. Hauvt had two women in his car who had ordered him to go slow and show them the sights Andrew Wilson, chauffeur for Frank B Strauss who lives at the St. Regis, was the next. He was tooling along Broadway without any rear light. He was indignant when arrested, but cooled down and wanted to hurry when he spotted tha

crowd. They came fast for a time. Each arrival was more boisteriously greeted than his predecessor until Joseph Kennedy, driving a hired machine, was arrested at Broadway and Eighty-sixth street. Kennedy's car contained two men and three women, all of whom seemed to have dined well. In front of the station house one of the women tried to set her dog on the jeering villagers nearest the car, but

the dog was too scared to budge. Kennedy was unable to give bail and a quick disappearance.

About 10 o'clock news of the raid had spread so that chauffeurs began to make long detours. Arrests got fewer and the crowd became tired and dispersed. One of the last arrests was that of William C. Hoar, driving a taxicab. He had heard of the trouble and came down town in Central Park West. He had as a fare Mrs. Fannie B. Cohen of 1

West Eighty-third street. Hoar was picked up at Sixty-first street making twenty miles an hour. Mrs. Cohen seemed rather frightened at the prospect of going to the station house and jumped out of the cab. While Hoar was being arraigned size got into communication with the police and told them that she had left her gold card case and a mirror in the cab. Both were found and Mrs. Cohen was told that she would have to come to the station house to get

her belongings. One of those caught after theatre hours was young Carroll D. Winslow of 4 East Tenth street and Yale. His father, Francis D. Winslow, a broker at 11 Wall street, gave him a machine on his twentyfirst birthday with instructions not to exceed the speed limit. On Monday night last Winslow was held in \$100 bail

for going too fast.

Last night while he was bound south on Central Park West with two women in the machine he was ordered to stop by Bicycle Policeman John J. Donovan. Winslow. according to the policeman, ran him down. Donovan was battered and his wheel smashed to pieces. In the West Sixty-eighth street station the young man was charged at first with spe but Donovan added a charge of assault One of the women with Winslow began to cry and offered a gold handbag as ball. That went for the speeding charge, but on the assault charge Winslow was led

to a cell. At 12:45 o'clock Sergt, Mallom turned up in the West Sixty-eighth street precinct in a steam automobile. He had been all over the city and had himself caught thirty-seven offenders.
